

## **Jesus Rides a Donkey.**

Jesus said to his team "it's time to show  
the people what they need to know.

We'll ride through Jerusalem, meet the crowd  
I want you to know that things might get loud."

"Great" said his team, "we'll get you a horse  
I'd rather have a donkey," said Jesus "because

It will show the people who I really am  
A gentle King, with a peaceful plan

If you read God's word, then you will know  
It was written in my story a long time ago."

The team brought the donkey, "you can sit on our cloaks".  
"Thanks" said Jesus, "your all excellent blokes."

The people on the street were excited and loud  
It was festival time which meant quite a crowd.

Then trotting down the street Jesus appeared  
Riding a donkey and the crowd all....**cheered!!!**

The crowd waved their branches, laid their cloaks on the floor  
**"Make way for the King!"** And they cheered some more.

**"What a wonderful day, shout hosanna and sing  
Blessed be the name of our gentle King."**

But some people muttered, "he's got a cheek,  
A King on a donkey's not a King we seek.

See the people the cheering; if he gets his way  
This 'King' will take out power away."

By now all Jerusalem was out on the street  
Who was this person people wanted to meet?

The crowds shouted out "this is Jesus you see  
Come to save you and come to save me."

And the donkey and Jesus went on their way  
Through the noise and the cheers and the crowds that day

There were lots of things he still needed to say  
But that would wait for another day.
